2014

**N**ovember is a time when we look around us and give thanks. During Paragon Night in October, our 4th & 5th graders reminded us that we can all MAKE A DIFFERENCE. I would like to share with you some of the ways our school family is making a difference and for which I am truly thankful.

I am thankful for our 108 students who have worked hard during the first quarter of our school year and celebrate their achievement by being on our Honor Roll.

I am thankful for our students and their families who have taken the Red Ribbon pledge to "Say NO" to drugs and alcohol.

I am thankful for our students who support Heart Health by participating in Jump-rope and Hoops for Heart during the week of Nov. 17-20.

I am thankful to those families who are willing and able to reach out to other less fortunate families in our school by donating canned and non-perishable foods during our food drive on Nov. 21st.

I am thankful for our teachers who go above and beyond with their creative talents to inspire our students to reach for greater heights in knowledge and education.

I am thankful for our dedicated staff who diligently toil behind the scenes to make our school successful.

And most of all, I am thankful for our parents and families who selflessly support their children in learning to read and write, who take time to be with their children and work to guide their children into being better and more caring citizens in our world.

- Ms. Morgan
